Wondering just what this class will cover? You will learn about food waste reduction and food recovery. Learn why it is important to the health of our soils and planet. You will be given examples that you can touch, smell and observe and learn about the process and stages of composting. And of course, troubleshooting tips and things to avoid. Let's not forget learning about vermicomposting (the importance of worms).

Please call 517.548.4439 to pre-register and for more information

Each class will be giving away a free Compost Bin to one lucky winner!
