

## Livingston County Community Health Improvement Plan (2015-2020) Annual Progress Report – Year 2

*Targets and progress are monitored through quarterly CHIP (MAPP) Champions meetings and other action team meeting sessions. Progress is tracked and entered into the tracking spreadsheet located here:  
S:\PHAB\_NATIONAL ACCREDITATION\MAPP Process\MAPP Champions*

*This report is updated annually for the CHIP (MAPP) Champions, MAPP Team, Board of Commissioners, County Administrator, and Health Department staff. It is also distributed to the community at large.*

| Substance Abuse – Substance Use Disorder & Treatment Workgroup   |               |                               |                               |                                 |             |
|--|---------------|-------------------------------|-------------------------------|---------------------------------|-------------|
|  | Objective Met | Moving in the Right Direction | Moving in the Wrong Direction | No change since previous report | No Progress |
| <b>Strategy 1:</b> Provide easy access to SUD resources  |               | ✓                             |                               |                                 |             |
| <b>Strategy 2:</b> Ensure a comprehensive continuum of care is available.  |               | ✓                             |                               |                                 |             |
| <b>Strategy 3:</b> Establish a data driven process that can be used for funding, advocacy, gap filling, etc.   |               |                               |                               |                                 | ✓           |
| <b>Strategy 4:</b> Engage the Livingston County Community.   |               | ✓                             |                               |                                 |             |
| <b>For in-depth outcomes &amp; accomplishments</b> – please refer to the CHIP Work Plan Tracking.  |               |                               |                               |                                 |             |
| <b>Challenges/Feasibility:</b> The information needed to start the gap analysis for Strategy 2 has not been completed by the funding agency. Additionally, the two sides funding the epidemic are in conflict: one side pushes for more enforcement on the availability of opiates and the other side insists the way to address the issue is to expand treatment. As a result, we have not seen the funding needed to fund programming. Livingston County treatment resources are also limited, and society continues to categorize addiction as a moral problem rather than a long term medical issue. |               |                               |                               |                                 |             |
| <b>Plan Revisions/Change in Priorities (if any):</b> please refer to the CHIP Work Plan Tracking.  |               |                               |                               |                                 |             |

### Substance Abuse Work Plan Tracking

**Goal Statement:** Through education and prevention, create and awareness in the community about the issues of substance use disorders.

|   |                                  |
|---|----------------------------------|
| <b>Strategy:</b> Establish a comprehensive directory of prevention and treatment resources in many forms.   |                                  |
| <b>Implementation Activity:</b> Provide easy access to SUD resources  | <b>Activity Completion Date:</b> |

| Health Promotion and Education – Cheryl Schott & Livingston County Health Department  |               |                               |                               |                                 |             |
|---|---------------|-------------------------------|-------------------------------|---------------------------------|-------------|
|   | Objective met | Moving in the right direction | Moving in the wrong direction | No change since previous report | No progress |
| <b>Strategy 1:</b> Form a community wellness coalition.   | ✓             |                               |                               |                                 |             |
| <b>Strategy 2:</b> Establish a baseline measuring of current health education activities.   |               | ✓                             |                               |                                 |             |
| <b>Strategy 3:</b> Select, develop, and assess potential evidence-based health education and promotion initiatives to fill at least one gap identified (if needed).   |               |                               |                               |                                 | ✓           |
| <b>Strategy 4:</b> Disseminate results of the gap analysis and provide information to the community on tools and resources to identify evidence-based health education/promotion models.  |               |                               |                               |                                 | ✓           |
| <b>Strategy 5:</b> Evaluate improvements in health education and promotion programs resulting from the gap analysis and dissemination of tools and resources.   |               |                               |                               |                                 | ✓           |
| <b>For in-depth outcomes &amp; accomplishments</b> – The team completed phase I of their assessment, which consisted of gathering information through the Internet/organizational websites and publications. They are now working on phase II, which includes contacting organizations to verify the information gathered in phase I. Please refer to the CHIP Work Plan Tracking for more details. |               |                               |                               |                                 |             |
| <b>Challenges/Feasibility:</b> Challenges so far include identifying an appropriate contact person for some organizations and getting a response in some cases.   |               |                               |                               |                                 |             |
| <b>Plan Revisions/Change in priorities (if any):</b> please refer to the CHIP Work Plan Tracking.   |               |                               |                               |                                 |             |

## Health Promotion and Education Work Plan Tracking

**Goal Statement:** Improve the promotion of health education for all residents in Livingston County

| Strategy: Form a community wellness coalition   |   |
|---|---|
| <b>Implementation Activity:</b> Convene a representative body of key stakeholders to advise and guide health promotion and education initiatives for Livingston County. | <b>Activity Completion Date:</b>  |
| <b>Progress</b>   | <b>Date/entered by</b>  |

| •  |                                  |

| Mental Health – Community Mental Health & Mental Wellness Workgroup  |               |                               |                               |                                 |             |
|--|---------------|-------------------------------|-------------------------------|---------------------------------|-------------|
|  | Objective met | Moving in the right direction | Moving in the wrong direction | No change since previous report | No progress |
| <b>Strategy 1:</b> Coordinate all private and public providers to do welcoming, appropriate, and effective referrals to care.  |               | ✓                             |                               |                                 |             |
| <b>Strategy 2:</b> Promote and communicate community understanding of mental health and access to the mental health care system.   |               | ✓                             |                               |                                 |             |
| <b>Strategy 3:</b> Expand access.  |               |                               |                               |                                 | ✓           |
| <b>Strategy 4:</b> Recruit more psychiatrists, particularly child psychiatrists, to the community.   |               | ✓                             |                               |                                 |             |
| <b>Strategy 5:</b> Help providers to stay current with best practice.  |               | ✓                             |                               |                                 |             |
| <b>For in-depth outcomes &amp; accomplishments</b> – please refer to the CHIP Work Plan Tracking.  |               |                               |                               |                                 |             |
| <b>Challenges/Feasibility:</b> While Strategy 4 remains a priority for Livingston County Community Mental Health, there are significant challenges as we are moving forward, beginning with the availability of psychiatrists, particularly child psychiatrists. |               |                               |                               |                                 |             |
| <b>Plan Revisions/Change in priorities (if any):</b> please refer to the CHIP Work Plan Tracking.  |               |                               |                               |                                 |             |

## Mental Health Work Plan Tracking

**Goal Statement:** All persons living in our community shall have access to high-quality, affordable, and coordinated mental health care.

|   |   |
|---|---|
| <b>Strategy:</b> Coordinate all private and public providers to do welcoming, appropriate, and effective referrals to care.   |   |
| <b>Implementation Activity:</b> Establish a mental health workgroup or work with the mental health awareness committee to identify needs/barriers to mental health referrals.   | <b>Activity Completion Date:</b> Postponed until March 2018 |
| Progress  | Date/entered by   |
| •   |   |
| <b>Implementation Activity:</b> Establish a comprehensive directory of mental health providers that is welcoming and provides information regarding private and public choices. | <b>Activity Completion Date:</b> ongoing                    |
| Progress  | Date/entered by   |
| • Intake and Access Department of Community Mental Health has a resource list of providers within the county.   | 1/22/2018   |

|   |  |
|---|--|
| <b>Implementation Activity:</b> Increase awareness by participating in community mental health events.  | <b>Activity Completion Date:</b> Ongoing   |
| Progress  | Date/entered by                            |
| <ul style="list-style-type: none"> <li>There have been several community activities to address mental health like adult and youth mental health first aid, suicide survivor event, NAMI walk, Community Connect, Walk for warmth, etc.</li> </ul>   | 1/19/2017                                  |
| <b>Strategy:</b> Promote and communicate community understanding of mental health and access to the mental health care system.  |  |
| <b>Implementation Activity:</b> Establish a mental health awareness campaign for general public.  | <b>Activity Completion Date:</b> 1/19/2017 |
| Progress  | Date/entered by                            |
| <ul style="list-style-type: none"> <li>There is not a formal mental health awareness campaign but there have been several activities and involvement in the Abilities Alliance workgroup that is taking the lead on this. CMH is co-chair of this group</li> </ul>  | 1/19/2017                                  |

## Healthcare Integration Work Plan Tracking

**Goal Statement:** Livingston County residents will be integrated into healthcare services.

|   |                                  |
|---|----------------------------------|
| <b>Strategy:</b> Develop a comprehensive list of providers within the community.  |                                  |
| <b>Implementation Activity:</b> Develop a comprehensive list of providers within the community. St. John Providence (SJP) and St. Joseph Mercy (SJMHS) have lists through their case management departments that can serve as the starting point.                                   | <b>Activity Completion Date:</b> |
| Progress  | Date/entered by                  |
| •   |                                  |
| <b>Strategy:</b> Develop a coalition of healthcare and transportation groups to explore the development of services that gets people to their medical appointments.   |                                  |
| <b>Implementation Activity:</b> St John Providence (SJP), St. Joseph Mercy Health System (SJMHS), Livingston County Department of Public Health (LCDPH), and Emergency Medical Services (EMS) to join and develop a service to get people to their appointments.                    | <b>Activity Completion Date:</b> |
| Progress  | Date/entered by                  |
| •   |                                  |
| <b>Implementation Activity:</b> Develop a GIS map that depicts locations of physicians and mental health care providers (color-coded by specialty) and work with the Transportation Action Team to see if we can connect patients to providers more effectively (added 10/21/2017). | <b>Activity Completion Date:</b> |
| Progress  | Date/entered by                  |
| • SJP and SJML to send LCDPH physician address lists for mapping, along with their specialty category. LCDPH to ask CMH for mental health provider addresses  | 10/21/2016                       |
| • Added Michigan Medicine providers to the list of providers being used to create the map.  | November 2017                    |
| <b>Strategy:</b> Establish educational sessions with teachers and teachers associations to share information related to health services.  |                                  |
| <b>Implementation Activity:</b> Develop a packaged plan comprised of other health information that is assembled through this effort.  | <b>Activity Completion Date:</b> |
| Progress  | Date/entered by                  |
| •   |                                  |
| <b>Strategy:</b> Enhance Together Health Network (St. Joe's and St. John's collaboration) and include the Livingston County Department of Public Health.  |                                  |
| <b>Implementation Activity:</b> Current collaboration in the MAPP process enhances above strategic relationship.  | <b>Activity Completion Date:</b> |
| Progress  | Date/entered by                  |
| •   |                                  |

|  |  |
|--|--|
| <b>Strategy:</b> Improve access to healthcare.   |  |
| <b>Implementation Activity:</b> Use SPJ and SJMHS's strategies to improve access to healthcare   | <b>Activity Completion Date:</b>                         |
| Progress   | Date/entered by  |
| •  |  |
| <b>Strategy:</b> Improve and educate on benefits of preventive services  |  |
| <b>Implementation Activity:</b> • See first objective under Strategy - Develop a comprehensive list of providers within the community, regarding the development and distribution of a comprehensive list of providers.<br>• See first objective under Strategy - Establish educational sessions with teachers and teachers associations to share information related to health services, regarding the development and distribution of an educational packet of healthcare information. | <b>Activity Completion Date:</b>                         |
| Progress   | Date/entered by  |
| •  |  |
| <b>Strategy:</b> Develop a group to review existing services within the county and ensure the community's needs are being served. Bring in groups to fill gaps rather than adding on to existing services.   |  |
| <b>Implementation Activity:</b> Bring in groups to assess and fill gaps, rather than adding to (or duplicating) existing services.   | <b>Activity Completion Date:</b>                         |
| Progress   | Date/entered by  |
| • Perhaps work with the Health Education Action team on this?  | 10.21.2016   |
| <b>Strategy:</b> Develop and implement evidence-based models to better connect individuals to the health and social services they need.  |  |
| <b>Implementation Activity:</b> Use data to analyze where areas of connectivity are needed in Livingston County.   | <b>Activity Completion Date:</b>                         |
| Progress   | Date/entered by  |
| • More work is needed to define specifically the implementation activities for these strategies. LCDPH has access to look at multiple evidence-based models related to this item but needs more specificity which will be determined at a later in the process.  |  |
| <b>Implementation Activity:</b> Research potential evidence-based models to use.   | <b>Activity Completion Date:</b>                         |
| Progress   | Date/entered by  |
| •  |  |
| <b>Implementation Activity:</b> Participate in the State Innovation Model project with Washtenaw County.   | <b>Activity Completion Date:</b> Currently participating |
| Progress   | Date/entered by  |
| • Currently participating.   | 2017   |

| Communication – Livingston County Communication Specialist  |   |                               |                               |                                 |             |
|---|---|-------------------------------|-------------------------------|---------------------------------|-------------|
|   | Objective met                                 | Moving in the right direction | Moving in the wrong direction | No change since previous report | No progress |
| <b>Strategy 1:</b> Work with the Human Services Collaborative Body workgroup to identify consistent and common messages related to their respective issue areas and appropriate channels and methods for disseminating those messages.  | Please refer to Challenges/Feasibility below. |                               |                               |                                 |             |
| <b>Strategy 2:</b> Utilize county radio outlets (e.g. WHMI) to convey specific community issues and resources.  |   |                               |                               |                                 |             |
| <b>Strategy 3:</b> Work with local ministerial associations to identify and implement appropriate and effective communication channels among their community.   |   |                               |                               |                                 |             |
| <b>Strategy 4:</b> Develop a relationship with local school districts to ensure information is being shared through Friday Packets, newsletters, websites, school events, etc.  |   |                               |                               |                                 |             |
| <b>Strategy 5:</b> Connect with local businesses and chambers of commerce to identify ways to share community information and messages with employees.  |   |                               |                               |                                 |             |
| <b>Strategy 6:</b> Continue to support and promote existing local communication tools and channels in the community (such as websites, social media groups, google groups, resource directories, community events, etc.).   |   |                               |                               |                                 |             |
| <b>For in-depth outcomes &amp; accomplishments</b> – please refer to the CHIP Work Plan Tracking.   |   |                               |                               |                                 |             |
| <b>Challenges/Feasibility:</b> The team met a few times, but the Champion notified LCHD on November 1, 2017 that she is unable to serve as the champion for this action team moving forward. However, LCHD proposed that she consider serving as a communications consultant at the quarterly MAPP Champions meetings to provide insights and recommendations to the other champions. She accepted. As a result, communication action items will be rolled into each of the action team’s activities as they implement existing action plans. |   |                               |                               |                                 |             |
| <b>Plan Revisions/Change in priorities (if any):</b> please refer to the CHIP Work Plan Tracking.   |   |                               |                               |                                 |             |

## Communication Work Plan Tracking

**Goal Statement:** Identify and utilize clear methods and processes for communicating and sharing information between community partners and the general public on a regular basis.

|  |                                  |
|--|----------------------------------|
| <b>Strategy:</b> Work with the Human Services Collaborative Body workgroup to identify consistent and common messages related to their respective issue areas and appropriate channels and methods for disseminating those messages.   |                                  |
| <b>Implementation Activity:</b> MAPP communication team to act as a resource in the identification of messaging and communication channels.  | <b>Activity Completion Date:</b> |
| <b>Progress</b>  | <b>Date/entered by</b>           |
| <ul style="list-style-type: none"> <li>We'll partner with the HSCB's Community Needs Assessment Group to gather what issues &amp; how best to communicate them. We may invite Anne to our meetings. The HSCB's presence on the Livgov.com website could be revised to draw the public's attention to resources.</li> </ul>   | 3/24/17                          |
| <ul style="list-style-type: none"> <li>Allison will talk to Chelsea M. about getting the meeting minutes and important issues from each Assessment Group's meeting and how to distribute.</li> </ul>   | 4/28/17                          |
| <ul style="list-style-type: none"> <li>The Champion had to step down. The MAPP Champions decided to roll communication components into the other strategic issue action plans and to disband the Communication Action Team.</li> </ul>   | 11/2/2017                        |
| <b>Strategy:</b> Utilize county radio outlets (e.g. WHMI) to convey specific community issues and resources.   |                                  |
| <b>Implementation Activity:</b> Explore scheduling a regular "community hour" in which issues and resources are discussed (e.g. interview local representatives, leaders, service providers, etc.).  | <b>Activity Completion Date:</b> |
| <b>Progress</b>  | <b>Date/entered by</b>           |
| <ul style="list-style-type: none"> <li>Our group, with info passed on through HSCB, can identify issues &amp; pass onto the Health Dept. who can identify a subject expert to write a press release or interview with WHMI. This group will send the info via social media, press releases, Livingston County newsletter, HSCB Google Group.</li> <li>Perhaps begin a monthly, bi-monthly, or quarterly health campaign that is promoted.</li> </ul> | 3/24/17                          |
| <ul style="list-style-type: none"> <li>Our group can reach out to other groups or local partners to see if they would like to create content for a campaign.</li> </ul>  | 4/28/17                          |
| <ul style="list-style-type: none"> <li>The Champion had to step down. The MAPP Champions decided to roll communication components into the other strategic issue action plans and to disband the Communication Action Team.</li> </ul>   | 11/2/17                          |
| <b>Strategy:</b> Work with local ministerial associations to identify and implement appropriate and effective  |                                  |
