MERS Defined Contribution Plan

About the Plan

The MERS Defined Contribution Plan provides you an invested retirement account that you manage, with contributions from you and your employer. Your future retirement benefit is determined by your account balance, which is affected by how much is contributed, the performance of your investments, and how many years you are invested.

This plan is a qualified retirement plan under Section 401(a) of the Internal Revenue Code (also known as a governmental money purchase plan). Unlike a private sector 401(k) plan, governmental plans **require** enrollment and there is not the flexibility to change employee contributions over time. In order to encourage retirement savings many governmental employers also offer a 457 program to employees.

Contributions

Contributions are the amount of money that go into your account each pay period. These can be something your employer contributes toward your retirement as well as what you put in from your own pay check. The rules are generally determined by your employer.

Employer Contributions are typically a fixed amount, or a match of your contributions.

Employee Contributions can be either mandatory or voluntary. Mandatory contributions are generally taken out pre-tax, which reduces your current taxable income. Voluntary contributions are after-tax and can be changed any time.

Check with your employer for contribution rules that apply to you. IRS rules limit the total contributions made to your account, including both your employer's and your contributions. The 2015 total contribution limit is \$53,000.

Vesting

Vesting is your eligibility to claim your employer contributions. It is based on a required amount of time you must work (or other service credit) to qualify. Check with your employer to see what that requirement is for your position. Employee contributions; however, are always yours to keep and do not require vesting eligibility to claim after employment.

There are two other types of governmental service credit you may be eligible to use to help you meet your vesting requirements: **MERS-to-MERS** and the Reciprocal Retirement Act (also known as **Act 88**). If you have been enrolled in another Michigan governmental employer's retirement plan, you may be eligible to use it to help meet this employer's vesting requirement.

Who is MERS?

MERS is an independent, professional retirement services company that serves municipal members across the state of Michigan. MERS listens and works in partnership with our members to deliver a superior value that meets our members' needs.

Beneficiaries

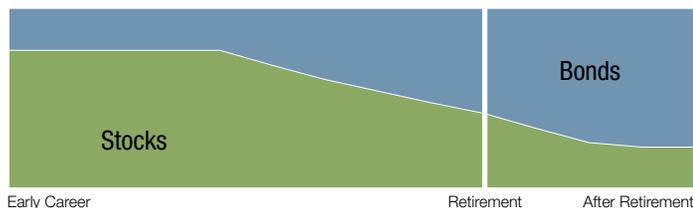

Once your enrollment has been processed you will be able to designate beneficiaries by downloading and filing out the Beneficiary Designation Form. This is an important step to ensure your funds are handled appropriately should something happen to you.

If married, your spouse is automatically your Primary Beneficiary and is entitled to all vested balance should you die. In your myMERS account, you will also be able to designate Contingent Beneficiary as a back-up, select beneficiaries other than your spouse, or choose multiple beneficiaries.

Investments

Initially, you will be placed in an age-appropriate **Retirement Strategy** – a simple, effective, all-in-one investment choice to help you save for retirement. Retirement Strategies may come in a single package, but each fund is highly diversified to help you put your money to work more effectively toward your retirement goals.

Each fund is named for a “target date” – the approximate year you expect to retire and start withdrawing from your account. Funds furthest from their target dates emphasize growth potential by allocating most investments to stocks. As you move closer to—and into—retirement, the funds automatically adjust to a more conservative mix.

Once your enrollment process is complete (when your employer enters your information into our system), you can change your investment allocation online through your myMERS account. The MERS Investment Menu is simplified into three categories to help you find the investment mix that best meets your investment style. Rollovers

A rollover allows you to move your money from a qualified retirement plan into your MERS Defined Contribution plan, consolidating accounts for easier oversight, compounded savings, and the benefit of MERS' low fees.

The MERS Defined Contribution Plan accepts rollovers from other qualified plans such as other 401(a) plans, supplemental 457(b) plans, other employer provided plans, and individual retirement accounts (IRAs). You do not have to pay any federal income tax on the amount you roll over. Your money will continue to grow tax-deferred until you start to make withdrawals.
