Solutions and Action

It is important to remember that people do recover. Each person has their own way and their own resources that help them along the way. Sometimes getting involved in the solutions or having opportunities to act on efforts helps the person in recovery, as well as, their loved ones. Below are just a few of the efforts in the county that you can get involved in.

- **Livingston County Community Alliance (LCCA)**

The LCCA is a broad-based, county-wide, coalition that works to establish healthy community norms regarding alcohol and other drug use through education, public policy development, and community services. www.livingstoncountycommunityalliance.org

- **Wake Up Livingston**

Participate in community presentations and actions to inform and educate, as well as address Opiates and Prescription drugs. Wake Up Livingston is a county wide initiative to address and combat opiate addiction and overdose through every sector of our community. To join us, contact www.wakeuplivingston.com

- **The Big Red Barrel**

Dispose of your unused and past date prescriptions by throwing them in the red barrels located at local police departments. For more information on the Big Red Barrel Program, go to www.livingstoncountycommunityalliance.org/bigredbarrel

- **Youth Led Prevention**

Youth-Led Prevention (YLP) is a comprehensive program for youth that engages educators, parents and communities by combining environmental and individual prevention strategies to support the positive attitudes, choices and behaviors of youth in our community. YLP enhances protective factors using peer to peer prevention, service learning/community service, and positive youth development and empowerment to promote the highest mental, emotional and behavioral well-being of youth. Youth are locally integrated into all prevention programming including LCCA activities through their involvement with It Stops With Students (ISWS) at Navigator, Students Taking a New Direction (STAND) at Pathfinder, and Students Leading Students (SLS) at Pinckney Community High School. Students meet regularly to promote non-using attitudes and healthy behaviors for youth. For more information contact Sandra Parker at Sandra@kbamichigan.com or 248-343-3769.

- **Livingston COMMUNITY PREVENTION Project**

The Livingston COMMUNITY PREVENTION Project (LCPP) was formed in 2008 to provide substance abuse prevention services throughout Livingston County. Karen Bergbower & Associates, Key Development Center, LACASA, and Livingston County Catholic Charities are the collaborative partners of LCPP. These agencies work together to implement several prevention programs that have been proven to impact substance use and related problems. LCPP provides an array of prevention services that target all sectors of Livingston County, including parents, schools, and the community. LCPP is focusing on the following priority

areas: reducing childhood and underage drinking, reducing prescription and over the counter drug abuse/misuse, and reducing illicit drug use. www.neversaynevermi.com
