# Books

# Toys

# Media

This collection of resources covers a broad range of topics such as autism, speech and hearing impairment, learning disabilities, inclusive education, sensory integration, Down Syndrome, emotional impairment, fine/gross motor skill building, and more.

## Therapeutic Toy Collection

This collection encourages creativity, conversation, and active play. Some items build fine motor skills while others offer tactile stimulation. Both types are helpful for children and adults with physical limitations.

## Speech and Therapy Cards

Encouraging conversation, flash-cards using illustrations and photos are an excellent resource for children and adults with cognitive, speech, or emotional impairments.

## Story Kits

Each kit contains a picture book and an item related to the story to touch and feel while listening. These manipulatives help give meaning to the words in the story and assist with comprehension, resulting in better enjoyment of the book as a whole.

## DVDs

This collection includes sign language, speech therapy, family relationships, social skills, and more.

Closed Captioning is available on most DVDs
