 PREPARED: August 2021  
 NOTE: Households are equivalent to occupied housing units.

**TREND:**

During the 2010 and 2020 decade Livingston County's change in households slowed compared to previous decades, with a percent change of 10.2% compared to a 21.7% growth in the previous 2000 - 2010 decade. Over the last 20 years between the 2000 Census and the 2020 Census, Livingston County has added 18,880 households (34.1% growth), with Genoa Township adding more households than any other community (2,554). Interestingly, Genoa Township was not the township to gain the most population during this same time frame (it was Oceola). One additional high-growth township, Oceola Township, gained over 2,000 households during this 20-year period.
